

PETITIONS:

Rather than listing each of the most important petitions against Donald Trump, or his administration, we suggest you go to the links of progressive organizations listed on our [Internet Portal](#). You will find that virtually all of them have a petition that is relevant to their priority concerns. At some point, if it seems valuable, we will list & describe some petitions here. Do know that some petitions are collecting lots of signatures: One calling for an investigation for Trump's impeachment, with close to 900,000 signatures, has already been submitted to Congress. Another one directed to the White House, has over 1,000,000 signatures (WH must respond to any petition with over 100,000 signatures). This latter petition calls on Trump to release his tax returns.
